**RE: LETTER OF SUPPORT FOR THE BEER INTEGRATED FARM PROJECT –
AMERICAN SOMALILAND ASSOCIATION FOR DEVELOPMENT (ASAD)**

The Diaspora Department under the Ministry of Foreign Affairs & International Cooperation of the Republic of Somaliland is pleased to express its appreciation and support for the work of the American Somaliland Association for Development (ASAD) and its efforts to mobilize resources and partnerships for sustainable development initiatives in Somaliland.

The Department recognizes ASAD commitment to translating community engagement and resource mobilization into tangible development impact, and particularly welcomes its efforts to mobilize financial, technical, and partnership resources across the United States and internationally for productive initiatives in Somaliland.

In this regard, the Department supports the Beer Integrated Farm Project in Togdheer Region, which seeks to advance food security, agricultural production, rural livelihoods, employment, and climate resilience. The initiative represents a valuable example of constructive resource mobilization and partnership in support of Somaliland development priorities.

Therefore, we strongly encourage individuals, foundations, businesses, development partners, diaspora communities, and other potential supporters in the United States and internationally to support ASAD efforts to mobilize the resources required for the successful realization of this important initiative.

Yours faithfully

Khaalid Aden Mohamed
Deputy and Acting Director, Diaspora Department
