RE: Letter of Support for Beer Integrated Farm Project - American Somaliland Association for Development (ASAD)

On behalf of the Ministry of Agricultural Development, I confirm our government's support for the Beer Integrated Farm (Togdheer Region), the project developed by the American Somaliland Association for Development (ASAD). This project aligns with the Ministry's strategic priorities to strengthen food security and support livelihoods of agropastoral communities. The farm will direct a share of harvest proceeds to community food assistance and Somaliland's national food reserve and food bank system.

In recognition of the public benefit these projects bring, the Ministry will assist in facilitating the water needs of the farm and will provide the necessary technical assistance, subject to standard technical assessment and coordination with ASAD. This reflects our confidence in ASAD's capacity to implement this significant project successfully.

The Ministry encourages government agencies, international donors, foundations, businesses, and individuals to join in supporting ASAD's efforts to complete this project, and we look forward to a continued and productive partnership.

Yours sincerely,

Aadan Geeddi Qayaad

Minister

Ministry of Agriculture Development

Republic of Somaliland
